Catalog Lithographed By MWM Color Press, Aurora, Mo.

## *Standard Guarantee of American Shorthorn Ass'n.*

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bang's Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bang's Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

Nugget's Robin comes from one of our better cow families going back to Cromleybank Legionaire that sold for \$15,000. He is good headed, thick, well balanced and with good bone. Stood 4th in a strong class of senior bull calves at the 1960 Iowa State Fair.

A Polled Shorthorn herd is profitable. Easy fleshing is an inherent characteristic. Note the thickness and depth of these producing matrons.

LANEDALE CLEAR PROFIT x - Lanedale Clear Profit's mother is the best daughter I have from Lynnwood Policy. His grandam, Lanedale Sharon 4th, was the mother of the bull I consigned last year to the Congress; she is also a daughter of Carona Fascination. This bull has also been used.

Yes, he's polled and he's profitable.  
He's a Polled Shorthorn bull and it's profitable  
to breed bulls like him because more and more  
commercial producers are demanding Polled  
Shorthorns.

## POLLED SHORTHORNS

## ARE PROFITABLE

Polled Shorthorns are a modern breed  
into high quality beef... giving producers and  
feeders a faster gaining and a more profitable  
calf.

These commercial producers know Polled  
Shorthorns sire healthy calves --- calves that  
gain faster, bringing a high return on invest-  
ment. The Polled Shorthorn also denotes the  
calves, making them easier to handle, and easier  
to sell.

That's why there's a growing demand for pure-  
bred Polled Shorthorns.  
And why it's profitable to breed them.

NUGGET'S CHALLENGER x - Another son of Perfect Nugget by Perfect Diamond, the bull we sold Harold Thieman. This bull sired the heifer that did so well for the Bapton herd. He stood 2d in the junior calf class at the 1960 Iowa State Fair. A very thick low set bull with a good thick rear quarter. His dam by Claymore Baronet, one of the top bulls by Cromleybank Legionaire. A half brother to Nugget's Challenger and out of the same mother, is being used quite extensively in our herd.

APSI ALBRIGHT x - Probably more people have complimented us on this calf than any we have had. Every sire in his pedigree has been herd improvers. His dam has consistently been one of our best producers. We like him in every detail and think he is hard to fault. He should be a dehorner and an improver. Calfhood Vaccinated for Bangs and Lepto.

Interest is always keen at the Polled Congress Show and Sale.

APSI ALLADIN x - His dam is a heavy set female with good polled breeding. She produced Apsi Genie, one of the top selling bulls in the 1957 Congress Sale. Apsi Approval is siring calves with extra depth and bone. Like all of our calves, Alladin was weaned at 6-7 months of age and started on grain. We believe this calf is an excellent prospect. Vaccinated for Bangs and Lepto.

Smooth, short legged, but packing pounds, these Polled heifers have a lifetime ahead of them of producing the same kind.

APSI QUEEN BESS 3D x - We purchased the dam of this attractive heifer in 1957. At that time she had an outstanding heifer calf at foot and has since raised 3 more top heifers. Two of her heifers are being kept in the herd and one was sold as a 4-H heifer and won Grand Championship in the county where shown. This is a good heifer, from very good ancestry and will make an excellent addition to any herd. Calfhood Vaccinated for Bangs and Lepto.
